## EDUCATION

Veer Narmad South Gujarat

Bachelor of Computer Application

CGPA: 7.04

Daman , dadra and Nagar Haveli

Graduation, May 2024

## PROFILE SUMMARY

Targeting **Full stack Developer** roles with an organization of high reput with a scope of improving knowledge and further career growth.

- MERN stack (**MongoDB, Express.js, React, Node.js**) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

## EXPERIENCE

Enlightened digital marketing

Php Web Developer Intern | 20 Dec, 2023 - Present:

- Collaborated with clients to understand and implement data flow requirements, ensuring effective communication and client satisfaction .
- Developed and deployed live projects using PHP, demonstrating proficiency in full-stack development
- Paytm gateway for e-commerce projects on WordPress, ensuring smooth and secure online transactions.
- Expanded skill set by learning Laravel framework, further enhancing proficiency in PHP development.

## PROJECTS

Blog Application with Authentication

Tools: React, Appwrite, Redux

A full-featured blog application enabling users to register, authenticate, and manage their blog posts seamlessly.

Responsibilities:

- Developed the front-end using React, creating a responsive and intuitive user interface.
- Implemented user authentication and authorization using Appwrite, ensuring secure access to the application.
- Managed the backend entirely with Appwrite, handling data storage, retrieval, and user management efficiently.
- Utilized Redux for state management to ensure consistent and predictable application state.

Currency Converter

Tools: React, API Integration

A sleek and intuitive web application allowing users to easily convert amounts between different currencies, leveraging real-time exchange rates.

Responsibilities:

- Developed the front-end using React, ensuring a responsive design that works seamlessly across desktops, tablets, and mobile devices.
- Implemented real-time exchange rate fetching using an external API for accurate currency conversions.
- Added swap functionality to quickly interchange source and target currencies.
- Supported multiple global currencies to cater to a diverse user base.
